

Profile of Siew Yue Rivaux-Kau

RK Consulting was founded by Siew Yue Rivaux-Kau, a global-moving expatriate since 1999. She was born in Malaysia and had lived and worked in the US, France, and the UAE.

Her fluency in English and French and her ability to speak in Malay and Cantonese are advantages in supporting expatriates as a mediator in the Gulf region.

Married to a French national with three children and several relocation experiences later give her a realistic and hands-on understanding of what it is like to be expatriated as a family.

Her Psychology and Human Resources Management education along with her family relocation experiences significantly influenced her dedication in providing quality support management to total client reassurance and satisfaction.

The combination of real life foreign experience and knowledge emphasize a personal coaching-oriented client support style and a comprehensive commitment to assist with the settling-in needs of our clients.

“We are here to guide new expatriates with their discovery and integration in the most modern Gulf city.”
